New Business

EV Charging Station location review. Mayor Vandegrift worked with KU. There are no other locations as beneficial as where the EV Stations currently are. KU says they will not move it. It gets a 10/10 on the rating for that location.

116 E Main St. Renovation update. Planning & Zoning Director Steve Hunter addressed the council on the progress of the building. The owner's time is running out with the Board of Adjustment on June 6th, 2025. He was given 18 months to complete the front and sides of the building. The building inspector has inspected the building, and the interior is in good standing. If everything is not completed by the final date given to the owner, he will begin to receive citations.
